INTRODUCING SUSTAINABLE FRESH HERB BAGS

“The most important value for 68% of consumers polled is efficient, Earth friendly packaging”

—THE PACKER, JAN 20

“61% of consumers say they’re likely to switch to a brand that is more environmentally friendly than their current brand.”

—GLOBAL WEB INDEX CONSUMER SURVEY, MAR 19

Give your organic herbs a competitive edge with our resealable, breathable bags!

IMPROVE SUSTAINABILITY:

Our bags use 75% less plastic than conventional clamshells, which not only helps the environment, but also meets customer demands for sustainable packaging.

REDUCE SHRINK:

Herb-specific micro-perforations provide a controlled atmosphere for gas exchange, which extends product shelf life, and they are resealable.
